

## How To Bid On Auctions

Auctions are a fun and exciting way to buy property. Everything is transparent. You'll always know what the other bids are and will never be left guessing. Bids usually start low and work their way up shortly before the auction ends. You can watch the properties/auctions any time without being registered or creating an account. It is fun to follow the action! By creating an Account and getting approved to bid, you can now place formal bids on any property you want.

**In order to bid, you must first create an account at [EasyHomeBidder.com](https://EasyHomeBidder.com).**

Step 1:

Login
